APPLICATION FOR EQUAL MONTHLY BILLING

The Town Council has approved a billing method for customers to pay equal monthly utility bills based on their prior billing history.

To be eligible for equal billing a customer must meet all of the following conditions:

1. Customer must have at least 3 of the 4 primary serves provided by the Town, of which one (1) must be electricity.
2. Customer must have at least 12 months of prior billing history in order to have a basis for determine an equal monthly bill.
3. Customer must sign an agreement stating that if the customer discontinuous services with the Town, the final bill will be determined by calculating the difference between actual usage and billed usage and that customer will pay the final amount due.

Step I: Town employee verifies account and determines that applicant meets requirement number 1 and 2 above.

Town employee determines total amount paid by applicant for the previous 12 months

Total amount for previous 12 months = \$ _____
 X 0.05 (5%) = \$ _____ (A).

\$ (A) _____ divide by 11 months = \$ _____.

\$ (B) _____ per month (round off monthly amount to nearest dollar)

Step 2: Town employees go over calculations in step 1.

This is to certify that _____ (Town employee) reviewed information in step I with me and I understand that my equal monthly bill for the next 11 months will be \$(B) _____ per month and the billing for the 12th month will be the difference from my actual usage during the past 12 months and the total of my equal billings for the past 11 months.
